

Job Title:

Electrical Technician/Electrician

Who we are:

Over the past 20 years, CPS has evolved to become Ireland's leading manufacturer of material handling systems and high quality automation solutions. We support some of the world's leading manufacturing companies by providing top quality, reliable automation equipment for even the most challenging requirements.

Due to our continued growth and expansion we have an exciting opportunity for electrical trade apprentices to join our equipment build team.

Job role:

Within this role, you will join our highly skilled equipment build team and be responsible for all different aspects of the electrical control system from panel build to debugging.

This is a hands on role which includes panel and field wiring both at our facility in Galway, and occasionally at our customers facilities.

- Capable of handling complete electrical panel builds and wiring.
- Responsible for all field wiring and work with other internal department teams during power up, I/O and safety checks, debugging and commissioning phases of the project.
- Understand the requirements necessary to complete a project on time and within budget
- Ensure safety and quality standards are met
- National and International travel maybe required
- 6 month probationary period

What we are looking for:

- Experience in a similar role/environment is an advantage
- Level 6 Craft Cert in the Electrical trade
- Capable of working within a team environment
- Punctual and good housekeeping approach
- Excellent communication and interpersonal skills
- An understanding of electrical & pneumatic schematics and control systems is an advantage
- Determined to deliver a quality product
- Ability to travel and a Full driving licence is required

To apply:

If you wish to further your career in the automation industry this role will provide personal fulfilment and invaluable experience.

Please send you CV to careers@cps.ie. The closing date for applications is 01st January 2022..
