

Job Title:

Mechanical Trade Apprentice

Who we are:

Over the past 20 years, CPS has evolved to become Ireland's leading manufacturer of material handling systems and high quality automation solutions. We support some of the world's leading manufacturing companies by providing top quality, reliable automation equipment for even the most challenging requirements.

Due to our continued growth and expansion we have an exciting opportunity for mechanical trade apprentices to join our equipment build team.

Job role:

Within this role, you will join our highly skilled equipment build team and be responsible for all different aspects of the build process of automation equipment from manufacture to installation at our customer's site.

This is a hands-on role which includes manufacturing components, assembly, test, debug and installation both at our facility in Galway, and occasionally at our customer's facilities.

Responsibilities:

- Responsible for aspects of the mechanical manufacture and build of equipment
- Follow mechanical drawings and pneumatic schematics to manufacture and assemble parts
- Communicate with other internal departments during all phases of the project
- Ensure safety and quality standards are met
- Travel may be required

What we are looking for:

- Eager to learn all aspects of automation equipment
- Punctual, good housekeeping and capable of working within a team
- Excellent communication and interpersonal skills
- Ambitious and hardworking attitude

To apply:

If you wish to further your career in the automation industry this role will provide personal fulfilment and invaluable experience.

Please send you CV to careers@cps.ie.
